

To Whom It May Concern:

I am a hard working single woman who is currently working 2 jobs. When I come home at night the last thing I want to do is field a telemarketer phone call asking if I want some product that I don't need. I believe most people are as busy as I am today either working or raising a family. And that they too feel as I do. Therefore I strongly urge you to not weaken our New Jersey consumer protection laws.

Thank you in anticipation of accepting my request.

Sincerely,

Kerri Ellsworth
